Savar, Dhaka, Bangladesh

Career Objective

A passionate Computer Science student and Web Developer with hands-on experience in developing responsive and interactive websites. Skilled in programming languages like JavaScript, Python, and Java, along with frameworks like React and Node.js. Driven by a love for technology and innovation, I aspire to contribute impactful solutions to the tech industry.

Skills

- **Programming Languages:** JavaScript, Python(basic).
- **Technologies/Frameworks:** HTML5, CSS3, React.js, Node.js, Tailwind, Next.js, MongoDB, Express.js, Firebase, JWT
- **Tools:** Git, GitHub, Figma, Visual Studio Code
- **Interpersonal Skills:** Time Management, Team work, Tech Enthusiastic

---

Projects

Visa Navigator [A smart platform for seamless visa processing **]**   Live Link || Code Link
Created a responsive tool for tracking visa application processes.
Key Features:

- Authentication system using firebase authentication.
- Responsive for all devices and interactive notification using sweet alert2.
- Displays 6 latest visa-related data entries by the user in home page & add or remove visa info.

Technologies Used: React.js, Tailwind, Firebase, MongoDB, Express.js.

Modern Hotel [A secure, interactive hotel booking platform with real-time reservations**]**   Live Link || Code Link
Key Features:

- Optimized for mobile, tablet and desktop, Eye catching design in all page with animation.
- Secure login and registration with JWT-based private routes
- Real-time booking management update and cancel booking reservation and notification using Toast to notify user.

Technologies Used: MongoDB, Express.js, React.js, Axios, JWT, Firebase, Tailwind, React-router-dom

Tour Nest [A Tourist Management system, All facilities in one platform **]**   Live Link || Code Link
Key Features:

- Authorization for Admin, Guide and Tourist/visitor. Different routes for different Role.
- Stripe payment system for tourist to pay. Status update for every situation
- Responsive for all device (mobile, tablet, laptop)

Technologies Used: React.js, Tailwind, React Router Dom, Firebase, Tanstack Query, Axios, Stripe, MongoDB, Express.js, JWT.

Education

- **Shyamoli Ideal Polytechnic Institute**
  Diploma in Engineering in Computer Science & Technology (**session:** 21-22)

Courses

- Complete Web Development Course

Languages

- Bangla: Native || English: Comfortable
